- Mini and comfortable size

### What is GPRS Guard Tour System?

A guard tour patrol system is a system for logging the rounds of employees in a variety of situations such as security guards patrolling property, technicians monitoring climate-controlled environments, and correctional officers checking prisoner living areas.

### WHAT IS GPS / ELECTRONIC GUARD TRACKING SYSTEM

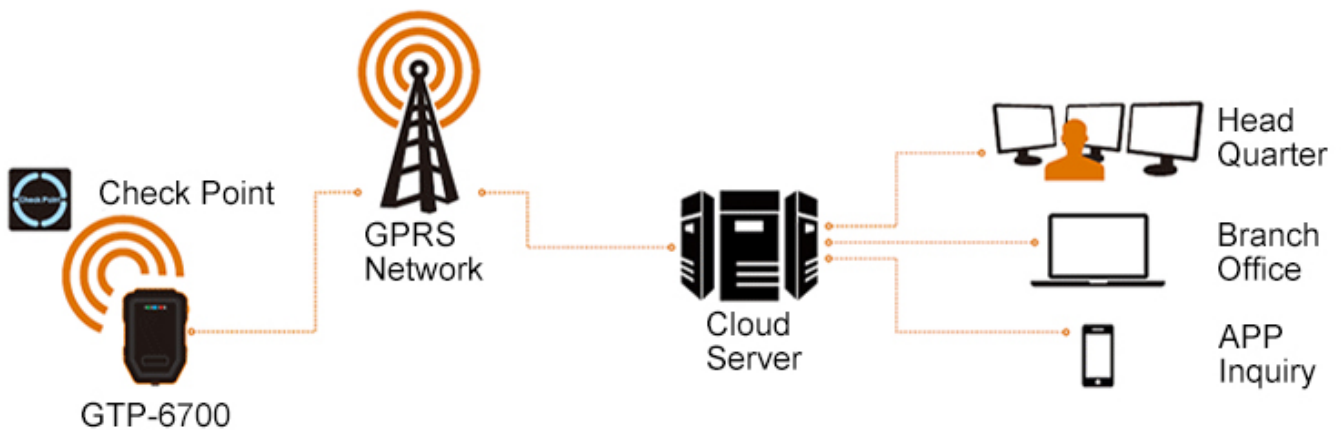

GPS guard tour tracking software and electronic guard patrol tracking apps are two names for the same thing: Real-time situational awareness of your security officer's latest position and activities.

support special function of historical track playback of GPS, can send data by WIFI. It's easy to track patrol route and check time.

### What is a guard monitor?

When a guard visits a checkpoint the information is available in real time, online for the monitoring center.

Management and even end users are able to see online, in real time how the rounds are progressing.

## Specifications

S4A Model	GTP-6700
Product Name	Mini GPRS Guard Tour System
<b>Specifications</b>	
Reading Method	Auto-induction, free from pressing any button
Sensor Frequency	125kHz EM ID tag
Material	ABS plastic+rubber handle
Direction	LED+Vibration
Storage capacity	80,000pcs
Impact record capacity	32,000pcs
Battery	1200 mAh built-in li-ion(rechargeable) battery
Communication	GPRS
SOS	Alerting via a panic button
Working consumption	60 mA
Working temperature	-20 C to 70 C
Working humidity	30% to 95%
IP rating	IP 65
USB	Magnet Pogo Pin USB port
<b>Product Parameter</b>	
Dimensions (L*W*H)	82mm x 52mm x 22mm
Net weight	73g

## Dimensions
