RFID Invisible drawer lock

CB-100

Advantages

1.The use of stainless steel thickened oblique tongue lock core guarantees quality. Compared with the hollow tongue or even plastic tongue used in the market to save costs, the stainless steel solid oblique tongue has guaranteed quality.

2.Invisible installation does not damage the appearance: no need to drill holes inside for installation, the drawer remains intact.

3.5cm sensing distance, mechanical automatic rebound.Suitable for 99% of household drawers and cabinets.

4.Adopting the latest professional-grade CPU, the effective sensing distance for card algorithm can reach 5 cm.

5.Low battery prevention system: low battery reminder, swipe the card when the battery is low,unlock to prevent the lock bead from rebounding.

6.Energy saving and power saving: Ultra-long battery life of 365 days, 3 No. 7 batteries save worry and effort.

Specifications

Item No	Hidden Lock 4th Generation		Material	Plastic PC
Style	Modern and simple		Specifications	with 2 free cards
Sensing Distance	50mm		Size（cm）	15x7.90x6.20
Weight(g)	210		Volume (cm³)	734.7

Dimensions(mm)

54mm

17mm   10mm
